Tank and Truck Repair Specialists

IN TANK & TRUCK REPAIR, B&R DELIVERS MORE

More Capacity

In addition to our 18 bay, 25,000 square foot headquarters in Lemont, IL, B&R Repair maintains service facilities in Hammond, IN and suburban Pittsburgh, PA.

More Experience

B&R Repair has been repairing and maintaining all makes and models of tractors, tankers, trailers, trucks, buses and various cargo transport units since our founding in 1987.

More Trained, Certified Technicians

B&R Repair employs more than 60 trained, certified technicians to serve your automotive, transportation and fabrication needs.

Computerized Diagnostic Troubleshooting

In addition to testing and repairs, B&R also provides custom vehicle upfitting, computer diagnostic troubleshooting and preventive fleet maintenance.

Emergency Roadside Assistance

B&R offers towing services and can provide emergency roadside assistance to get your vehicle back on the road.

In-House Fabrication

To repair or customize trucks and tanks, B&R provides a wide range of welding and fabrication services. From frames to boxes, our expert technicians are experienced at meeting all specifications and industry standards.

CUSTOM MODIFICATION & UPFITTING

B&R Repair has met the operational and regulatory needs of various industries since it's founding. Just a few upfitting applications include:

Custom Welding and Fabrication – B&R welds, fabricates and installs modified and custom storage bodies to keep tools and equipment safe, secure and easy to access. Our technicians custom weld, fabricate and install frames, boxes and other accessories to match your exact needs and specifications.

B&R Collapsible Safety Railing System – After upfitting tankers with safety railings for decades, B&R Repair was awarded a patent for its custom-designed safety railings. In-house control from design to welding, fabrication and installation ensures OSHA-approved safety and total customer satisfaction.

GARDNER-DENVER DISTRIBUTOR

Gardner
Denver

B&R Repair is an authorized distributor of Gardner-Denver pumps, blowers, vacuums and cooling systems specifically designed to meet all dry bulk, chemical, hydraulic and sanitary equipment needs.

CERTIFIED INSPECTIONS & TESTING

Inspections and testing are crucial in the trucking industry, ensuring vehicles and drivers meet safety standards and regulations set by the Federal Motor Carrier Safety Administration (FMCSA) and the U.S. Department of Transportation (DOT). B&R Repair is authorized to administer the following tests and inspections.

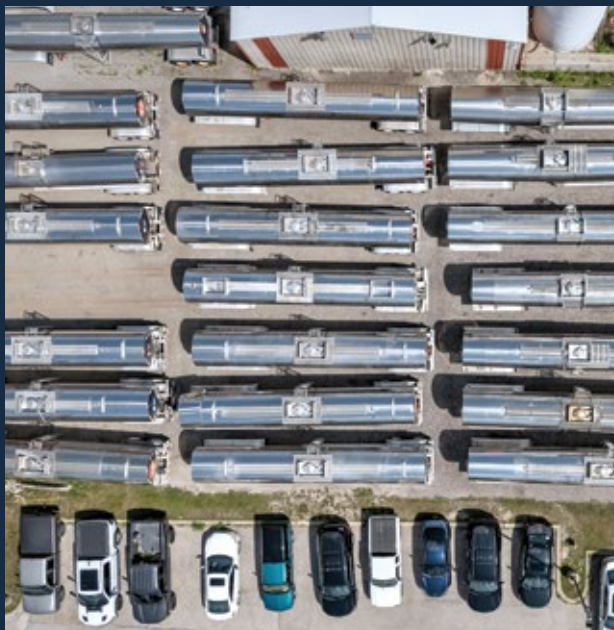

- National Board R Stamp
- External Visual Inspection
- Internal Visual Inspection
- Leakage Test
- Pressure Re-Testing
- Thickness Testing
- Lining Repair/Inspection
- Vapor Recovery Testing

PREVENTIVE MAINTENANCE FOR FLEETS

To keep fleets running stronger and longer, B&R Repair offers preventive maintenance programs that include inspections, maintenance and repairs. After maintaining fleets for decades, B&R knows that keeping your vehicles in optimal condition boosts your bottom line by avoiding downtime and extending the useful life of your equipment.

TANK LEASING

Leasing enables your organization to find just the right vehicles while preserving capital. In addition, custom upfitting and preventive maintenance can be incorporated into any leasing program, providing your company with an affordable, one-stop solution to fleet management.

QUALITY YOU CAN TRUST

Known for quality workmanship and their “no job too big, no job too small” attitude, father and son Buster and Randy May established B&R Repair in 1987 to service transportation operations throughout Chicagoland. By reinforcing their untiring work ethic with a commitment to training and technology for nearly 4 decades, this family-owned and operated enterprise has grown its geographic footprint, added new facilities and expanded their services to meet the needs of an ever-changing transportation industry. To keep your fleet running strong, count on the tank and truck repair specialists at B&R Repair, Inc.
